Step 1

Step 2

CARE OF YOUR BEDSTEAD

- Use a soft dry duster to clean your plated bedstead
- For stubborn stains, use a soft damp cloth and then revert to the soft dry duster
- PLEASE NOTE : Polishing materials and solvents should not be used, as they dissolve the protecting lacquer and allow oxidation of the genuine base material.
- Using fittings in the incorrect place when assembling the bedstead can cause fittings to become cross threaded. This can then lead to fittings becoming trapped; making disassembly of the product difficult and voiding the warranty. Please take care to ensure all fittings are used only where stipulated.

We cannot accept responsibility for damage caused due to misuse of this product.

METAL SPRUNG SLAT BASE

100X,122X,
Stock number: 150X,180B

Thank you for purchasing this product. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Pre-assembly preparation

Please ensure instructions are read in full before attempting to assemble this product.

Necessary Tools

(Included)

Please check the pack contents before attempting to assemble this product. A full checklist of components is given in this leaflet. If any components are missing, please contact the retailer from whom you bought this product.

This product takes approximately **30 MINUTES** to assemble with **2 PEOPLE**.

All assembly should be performed on a flat, stable, clean and soft surface.

This product is **HEAVY**, it should be assembled as near as possible to the point of use. **TAKE CARE WHEN LIFTING** to avoid personal injury and (or) damage to the product

The fitting pack contains **SMALL ITEMS** which should be **KEPT AWAY FROM YOUNG CHILDREN**.

IMPORTANT: Retain these instructions for future reference.

PLEASE NOTE: Using fittings in the incorrect place when assembling this product can cause fittings to become cross threaded. This can then lead to fittings becoming trapped; making disassembly of the product difficult and voiding the warranty. Please take care to ensure all fittings are used only where stipulated.

Fittings and parts checklist

Item	Description	Qty.	Item	Description	Qty.
1	Sprung slat	x 28	5	Adjustable metal center leg	x 1
2	Metal end rail	x 2	6	End plastic sleeve	x 28
3	Metal center rail	x 1	7	Center plastic sleeve	x 14
4	Metal side rail	x 2			
A	Flat washer Ø8.4 x 1mm	x 8	C	Allen key	x 1
B	Head hex bolt Ø8 x 20mm	x 8			

Step By Step Assembly Instructions

Step 1 Attach metal side rails (4) onto metal end rails (2) using 8x hex head bolts (B) and 8x flat washers (A) as shown. Use allen key (C) to turn fittings (B) clockwise to fix.

Fitting

A x 8

B x 8

C x 1

Step By Step Assembly Instructions

Step 2 : For details on attaching this base to the metal frame, please refer to the instructions, and use the fittings, included with the metal headend and footend pack.

Step By Step Assembly Instructions

- Step 3**
- 3.1 : Remove the bracket from adjustable metal center leg (5) by using allen key (C) to turn 2x hex head bolts counterclockwise as shown.
 - 3.2 : Place adjustable metal center leg (5) onto metal center rail (3) then secure the bracket back onto metal center leg (5) using the previously removed 2x hex head bolts as shown. Use allen key (C) to turn bolts clockwise to fix.
 - 3.3 : Place the assembled metal center rail (3) with metal center leg (5) onto the brackets that are already affixed on metal end rails (2) as shown. Adjust the adjustable center leg to fit with the floor level as shown.

Fitting

Step By Step Assembly Instructions

Step 4

- 4.1: Insert 28x end plastic sleeves (6) onto one end of 28x sprung slats (1) and thereafter insert the other ends of all parts (1) into both sides of 14x center plastic sleeves (7) as shown.
- 4.2: Attach the previously assembled 14x sprung slat sets into the pre-drilled holes on metal side rails (4) and pre-drilled holes on metal center rail (3) as shown.

Care and Maintenance

Wood Furniture

Wood displays different grain patterns depending on which way they are cut - for example, the 'medullary ray' which can appear on oak furniture is a mark of good quality timber - these are just characteristics of the natural beauty of the wood.

Some furniture is also deliberately aged and rustic.

Wood veneers also allow distinctive patterns to be created on some surfaces, such as table tops and drawer fronts by the way slivers are arranged.

All timber and veneer surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

Dust with a clean, damp, lint free cloth. Frequent dusting will remove abrasive build up, which can damage the finish over time.

Do not use a very wet cloth or allow any liquid to contact with the veneers for a long period of time as this can permanently damage the surface. Wipe up spills immediately.

Do not use any abrasive cleaner or harsh detergent as this can damage the surface of the furniture.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface when building up over time.

Make sure all surfaces are protected from heat and liquids by mats and coasters.

Ensure that a mat or pad is placed under paper when you are writing on the furniture surface.

Do not place rubber, cork, vinyl or plastic materials on the wood finish as chemicals within may react with the finish if left in contact for an extended period of time.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by home heating can cause damage such as warping, cracking or splitting.

Excessive exposure to sunlight can cause fading of your furniture.

Avoid exposing your furniture to any liquids. All liquids should be wiped up immediately with a soft, slightly damp cloth in the direction of the wood grain. If sticky liquid residues do occur, they may be removed with a dilute solution of warm soapy water followed by a clean, damp sponge. The area should then be wiped immediately in the direction of the wood grain with a clean, soft white cloth until completely dry.

Nail polish remover, hairspray, perfume, potpourri & any other products that contains solvents can damage wood upholstery finishes.

Safety Instructions:

Never drag furniture when moving it. Always lift it.

Periodically check all fixings to ensure none have come loose. Re-tighten when necessary.

Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly assembled. Assembly should be carried out by a competent person.

No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

Heavy item warning:

It is recommended to seek assistance when moving a heavy object. Take care when lifting to avoid personal injury and (or) damage to the product.

It is recommended that before moving a heavy object to a new location it is completely dis-assembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.

Metal Care and Cleaning:

The metal frame of this product can be damaged by scratching of large or hard items on the surface. Please read the care and cleaning instructions carefully to ensure the best performance. Routine cleaning of the metal frame will prevent a build up of dirt and maintain the finish of the product.

Routine Cleaning

Please use warm water, soap or a mild detergent solution. Sponge the metal frame with clean water. Wipe dry if necessary with a clean, soft cloth.

Note: NEVER use an abrasive cleaner or scourer as this will scratch the finish.

Cleaning with **chloride-containing detergents must be avoided.**

Fingerprints and Smears

Please use soap and warm water or organic solvent (eg. alcohol, methylated spirits). Carefully sponge with a solution of mild soap (or organic solvent) and water. Rinse thoroughly afterwards with warm water. Wipe dry with a clean, soft cloth.

PLEASE KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE
